Efficient workspace

2022

Improve your efficiency - choose bott

Thank you for considering bott to deliver your workplace storage solution.

We're focussed on creating efficient, organised workspaces - for customers who want to improve and evolve and get the best out of their working environments. Our experience shows that investments in modern fit-for-purpose equipment, results in greater efficiencies, increased productivity and long-term operational success.

With a strong commitment to delivering excellent customer service, you can be confident that our products and services will support your ongoing business success.

Our offer goes beyond the simple supply of products - we regularly design, manufacture and install customised solutions. Our project design engineers can visit your site for a free design consultation and propose a solution based around your individual needs.

Choose a workplace storage solution from bott and help drive efficiencies in your business.

A partner you can trust

With over 90 years of industry experience, the Bott Group are world-leading manufacturers and suppliers of efficient workspace solutions; with three manufacturing sites in Europe and a fully integrated global sales network.

In the UK, Bott Ltd. have been manufacturing high-quality workplace storage equipment for over 40 years.

Innovation is key to bott's success. We develop and create market led solutions, based on a real understanding of our customers' needs. We are agile and flexible and collaborate on a group level to develop new and relevant products.

As a trusted partner to many specialist brands from a wide range of industries, we are well prepared to assist you with your workplace storage requirements.

Choose bott and benefit from a wealth of knowledge, skill and expertise.

Delivering value for customers

We are proud to be a British manufacturing success story. From our UK facility in Cornwall, we ensure that the technologies and processes we use, are focused on delivering the best value for our customers.

Through the application of LEAN manufacturing principles and investments into automated production; our state-of-the-art factory delivers consistent high-quality - from raw materials through to our finished products. Our flexible manufacturing capability and customer focused approach, enables us to offer both comprehensive ranges and bespoke requirements, with reliable delivery.

As a company, we take a proactive approach to reducing our environmental impact and are committed to protecting our natural resources. We've invested heavily in green technologies such as electric company vehicles, rainwater harvesting, energy efficiency, intelligent lighting and solar power.

Choose bott for reliable quality and delivery.

Designed to perform, built to last

Choosing functional, sustainable products that stand the test of time, is now more important than ever. A long-term investment today, helps to prepare for the challenges of tomorrow.

At bott, we're in the business of producing high-quality storage solutions that deliver excellent customer value. Our in-house design, test and manufacturing processes, mean that we can be confident in the quality and longevity of our products.

To ensure your equipment is up to the job, our products have exceptionally high capacities including; 100% drawer extension, 200kg U.D.L capacity drawers and 1200kg U.D.L. rated benches.

Our 'Built to Last' approach guarantees that our workplace storage equipment will stand the test of time and match the exacting demands of your operations. Our UK manufactured products carry a 10-year extended guarantee and support is only a phone call away.

Choose bott and you'll be investing in a high-quality, professional long-term solution.

Turning your ideas into reality

Our custom design and build service was developed to help customers choose the most beneficial solution, when creating their new working environments. Whether kitting out a new facility, or simply transforming an existing area, projects can be time-consuming, demanding and costly if things don't go to plan.

With many years of experience in a wide range of sectors, our project management team are specialists in the field. They can visit your site to gain an in-depth understanding of your operational needs, the size of your working area, budgetary considerations and timescales.

By working together, we can discuss the most suitable products, materials and configurations, then create detailed 3D visuals of your workspace proposal, ensuring it's perfect for you.

With a wide-ranging product offer and the flexibility that comes from having our own manufacturing plant, we can transform your ideas into reality.

Choose bott and you'll receive a truly tailored solution.

Installations, scheduled to suit you

As an optional extra and to finish off the process, we can install your workplace storage equipment so that it's ready for use.

To keep disruption down to a minimum, our installations are scheduled to fit around you and your business, ensuring a swift and easy transfer into your new workspace.

Our highly trained engineers will meet the delivery, unwrap and assemble the equipment and efficiently install your system in accordance with site requirements. They will handle every part

of the build - leaving you with a fully functional working environment to be proud of.

You can be confident that from consultation and design, through to delivery and completed installation, we provide a reliable, professional, high-quality service.

Choose bott for peace of mind.

Divider Kits

Small parts can be efficiently organised with trough blocks, plastic boxes, inlay mats and adjustable metal dividers. Supplied as simple pre-designed kits, or custom layouts can be created upon request.

For more information download our Drawer Divider Technical Guide by scanning the QR code.

Adjustable Metal Dividers

Galvanised metal dividers in a wide range of sizes to suit all cabinets

All parts are adjustable in position allowing individual layouts to be easily created and amended as requirements change.

Plastic Boxes

Tough plastic divider boxes in a wide range of sizes and heights.

All are easily removed to allow use elsewhere and easy amendment of layout. Labelling kit available.

Plastic Troughs

Tough plastic trough sections in two, three or four channel types.

All are sub dividable and may be removed to allow easy amendment of layout.

Inlay Mats

Quality rubber matting for the drawer base.

Provides a softer, safer base for expensive or delicate items and can reduce noise especially in mobile applications. May be used in conjunction with the metal dividers.

"We approached bott with an initial idea for what we wanted; the team at bott then created a 3D design proposal.

The equipment was then manufactured and installed to support our requirement.

Given the exacting nature of our work we need a very well organised and tidy workplace to ensure we successfully deliver to our clients, the bott equipment and design process has given us a truly professional workshop."

**Daniel Hall; Senior Manager.
Ricardo UK**

"The bott team took the time to understand our storage requirements, and developed and installed a solution optimised around our needs, supporting our ethos of professionalism and efficiency"

Ross Bunyard, Castle Air

Heavy Duty Mobile Cabinets

- Heavy duty mobile cabinets
- Up to 600kg U.D.L. capacity
- 50kg U.D.L. capacity drawers
- 100% extension drawer roller bearing slides
- Drawer blocking and safety interlocks
- Quality handle and castor set
- Top tray with inlaid mat
- Full range of division accessories
- Built to last with 10 year extended guarantee

Bott developed and installed a bespoke storage system for our Brackley workshop.

From the high-quality cubio range, the equipment was designed to improve productivity and efficiency and to support the Invictus Games Racing team throughout the GT race season.

David Appleby Engineering

Ergonomic workstations

Configure your own
workstation

Medium or heavy
duty options

One workstation, endless possibilities

With demanding lead times in today's competitive environment, we understand that many businesses are looking to deliver both flexibility and efficiency into their manual assembly processes. Whether for precision engineering or high-value electronics manufacture, introducing LEAN principles can be key to driving efficiencies.

Configure your individual workstation here:
qr.bottltd.co.uk/22uk-wb-config

Choose an ergonomic workstation from bott, for staff welfare, efficiency and productivity.

- Solutions to eliminate non-value adding and wasteful activities
- Tailored to suit your unique operational objectives and applications
- Designed to create comfortable, efficient workplaces with effective manual assembly processes
- Adaptable and flexible with endless possibilities
